

New Storm Evo

✓ Main application fields

• Nautical equipment

• Waders

• Technical shoes for mountaineering

• Dry suits

• Medical and chemical fields

✓ Performances:

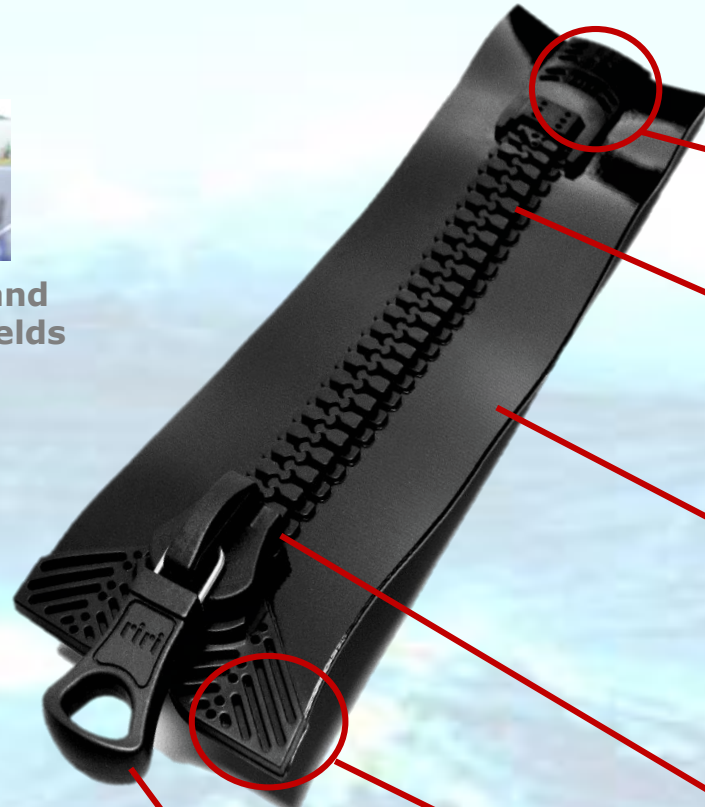

- **Waterproofness:** superior to the main players in the market
- **Resistance:** tested over 10 thousand reciprocating cycles, maintaining a good mechanical performance
- **Smoothness:** the tape is thinner compared to the one of the old Storm and this helps to improve its smoothness, that is now better than our competitors and aligned with the best performances in the market

✓ Sales conditions for chains and tapes:

- MOQ: 100 pieces length/colour (for standard and optional colours)
- Surcharge for optional colours: +10% per meter compared to standard

Customizations:

- MOQ: 5000 pieces
- Surcharge: +10% per meter compared to standard

- ✓ **Executions available:**
