

Riri Sustainability Project

Product	Metal – INOX	Available Executions	GE – CD - CK	Available Dimensions	6 mm
----------------	--------------	-----------------------------	-----------------	-----------------------------	------

For any further information, please ask our sales representatives.

What makes it Sustainable:

Tape	Certified sustainable cotton tape	Riri <u>Certified sustainable cotton tape</u> is produced using 40% less water and 20% less energy compared to traditional cotton; furthermore it does not contain GMO and it is <u>grown without the use of toxic chemicals.</u> Supply chain is traceable.
Components	Mono-material metal	Chain, stoppers, puller and slider are entirely made of stainless steel conferring a <u>high degree of recyclability</u> to the Metal 6 – INOX.
Surface treatments	Reduced water & energy consumption	Thanks to the inherent characteristics of Stainless Steel , the Metal 6 – INOX is produced <u>without any galvanic treatment.</u>
Certifications	Product certified	Oekotex Standard 100 – Product Class I is an international accreditation of a responsible chemical management . Cotton yarn is also certified 'MADE IN GREEN by OEKO-TEX' .
Technics	Resistance & robustness	Thanks to the high degree of durability of stainless steel, the Metal 6 – INOX <u>has a longer life cycle.</u>
