

ENHANCE TRACEABILITY AND TRANSPARENCY

Every activity we do is dedicated to respect the planet and its people; based on our strong heritage and leadership in the industry, we can ensure not only traceability and transparency, but also better and higher environmental, ethical and social performances.

In collaboration with **Marsh** we have defined an **ESG (ENVIRONMENTAL, SOCIAL, GOVERNANCE) STRATEGY**, based on the implementation of an environmental, quality, health and safety management strategy in all of the Group's plants, that will be certified in compliance with **ISO 9001, ISO 14001** and **ISO 45001**.

As part of this project, Riri has chosen **Mercer** as partner for a triennial initiative, whose aim is to ensure fair career opportunities in accordance with the criteria of Diversity, Equity and Inclusion to promote meritocracy and the expression of each employee's talent.

We support **GLOBAL INDEPENDENT CERTIFICATIONS** in order to verify that all the elements of our products comply with environmental protection and human rights standards.
