

## FEATURES

- Gold with 95% recycled composition
- Palladium with 100% recycled composition
- Precious metals purchased from RJC – COC (Responsible Jewellery Council - Chain Of Custody) certified suppliers

Gold and palladium used for Oerlikon Riri accessories are composed of 95% and 100% recycled materials respectively.

For its range of finishes made with precious metals, Oerlikon Riri cooperates exclusively with RJC - COC-certified suppliers.

RJC is a not-for-profit organization whose members are committed to complying with and disseminating the principles of social responsibility throughout the supply chain.
